

THE ULTIMATE IN HIGH-DIGNITY TOILETING FOR HOME CARE.

Introducing the Laveo™
waterless, odorless,
chemical-free
portable toilet.

A Breakthrough in Dignified Toileting in Home Care!

The Laveo™ by Dry Flush is an innovative and practical way to provide family members and patients who are receiving convalescent care with on-the-spot access to a portable electric toilet.

The waterless, odorless, chemical-free, no-freeze, low-maintenance and compact toilet measures 16"W x 20"D x 18"H and weighs just 29 lbs.

For comfort, the seat and height are standard toilet sizes. When done, users simply push the flush button as they would with a traditional toilet. However, instead of requiring water, extensive plumbing or expensive chemicals, the proprietary Laveo double-layered barrier bag automatically encloses urine and stool in a spill-resistant, odorless way. The dispenser automatically brings in new, clean barrier bag material for the next flush.

Each barrier bag cartridge can handle an average of 15 flushes, or 25 uses if you use our Pee Powder.

Once full, a cartridge may be easily removed in a sanitary way and discarded in a trash container. There is no dirty water to dump or chemicals to pour. Installing a new cartridge takes less than one minute.

The self-contained Laveo Dry Flush portable toilet uses 12V DC power with 4.9 amp flush and 0.0 amp idle. Power options include long-life rechargeable batteries, solar chargers and AC adaptors. A charger cable is included. Other options include handrails, mounting brackets and privacy shelters. The "go anywhere" Laveo toilet may be easily removed, utilized elsewhere, and re-installed in a bedroom or elsewhere as needed.

Add it all up, and Laveo Dry Flush is an excellent choice and a smart investment in comfort and convenience for your loved one in need of home care!

The Comfort Lift Package makes the Laveo an enormously helpful bedside toilet for people with limited mobility.

Founded in 2012, Dry Flush has rapidly become a leader in high-quality, U.S.-made portable electric toilets. Thousands of Laveo toilets are in use around the world.
